

# DROID DNA by HTC

## THE ULTIMATE SMARTPHONE

- Rivaling the latest HD TV technology, the DROID DNA by HTC introduces a revolutionary **5-inch full HD 1080p** super LCD 3 display with rich colors, amazing brightness and the **highest resolution and pixel density** available on any smartphone.
- An unmatched combination of speed and performance, it's powered by a **Qualcomm Snapdragon™ S4 Pro quad-core** 1.5 GHz processor, **2 GB** of RAM, and **HTC Sense 4+** with **Android Jelly Bean** - running on **America's largest 4G LTE** network.
- Designed to accentuate the **incredible 5-inch display**, the curved, **black, soft-touch back tapers to a mere 4mm** to feel comfortable in your hand or pocket and the red microgrill sidewalls hint at the power inside.

## AMAZING CAMERA

- HTC's Amazing Camera set a new standard for imaging with **HTC ImageSense™** bringing improvements to every part of the camera including the lens, sensor, and software including a custom **HTC ImageChip**.
- New **Sightseeing mode** ensures you're always ready to capture the moment as only one touch of the power button bypasses the lock screen and launches directly into the camera.
- A **best-in-class 2.1MP, f/2.0 aperture**, and **88-degree ultra-wide angle front-facing camera** allows you to get up to four faces and additional background in your self-portraits. With **Auto Portrait** mode, touch to begin an automatic countdown timer—focus on your pose and not the shutter button.
- **HTC VideoPic™** captures high-quality photos while shooting 1080p HD video and **Continuous Shooting** captures images up to 4 frames per second by simply holding the shutter button.
- **Map and Event Views** in gallery mode display photo albums according to when or where they were taken.

## AUTHENTIC SOUND

- **Beats Audio™** delivers authentic, studio-quality sound across the entire multimedia experience.
- A **unique 2.55v built-in headset amplifier** and **dedicated rear-speaker amp** help to boost the audio signal for even better sound with music video and gaming to deliver **crystal clear sound** with less distortion, even at maximum volume.
